WEATHER-BEATEN

If you are not already moving or cleaning house, you will probably do one or the other soon. Every time you do either, your furniture becomes more or less scratched and marred. You may frequently be tempted to discard a piece of furniture because of its shabby appearance. JAP-A-LAC is made especially for the purpose of saving such articles. Take a chair or table for instance, -almost any kind will cost you at least \$2.00 or \$3.00. If you discard an old one, you will be compelled to buy a new one to take its place. You can JAP-A-LAC the old one at a cost of 15c and save the difference. There is absolutely nothing else

made which will equal JAP-A-LAC for its beauty, durability, ease of application, and non-fading qualities. JAP-A-LAC is colored with the best pigment, -pigment is the only coloring substance used in coloring paint or varnish, which will not fade. Cheap imitations of JAP-A-LAC, which are colored with aniline, have recently been sold under other names, (frequently names containing the word LAC); and although they sometimes produce beautiful results when first applied, they soon fade and lose their brilliancy, because aniline is nothing but a dye.

Ask your dealer about JAP-A-LAC. If you want the rich, smooth finish which is produced by this superb article only, -insist on get-

A WARNING AGAINST THE DEALER WHO SUBSTITUTES.

When you go to a paint dealer's store to buy JAP-A-LAC, it's because we have convinced you that every word we have said in its favor, is the gospel truth. If the dealer tries to sell you something else which he claims is better, does he not virtually say to you that YOU DON'T KNOW WHAT YOU WANT? Who is the best judge of your intelligence? You, -or some one else?

Insist on JAP-A-LAC.
